COAL TRAIN ON WABASH BACKS INTO THE CHAIR CAR AT CHAMPAIGN.

### ST. LOUIS SALESMAN LOST HIS LIFE

He Was Sitting on a Camp Stool on Rear Platform of Car and Was Crushed—Jury Taken to the Scene of Accident.

St. Louis, Mo., June 9.—One man was killed outright and eight other passengers were seriously injured at 2:18 p. m. yesterday at Staunton, Ill., when a coal train on the Wabash railroad tracks backed into and wrecked a chair car on the McKinley line, at a crossing of the two roads near the city limits.

Charles Doehmer, 40 years old, a traveling salesman for the Fleischman Yeast company, 1535 Market street, St. Louis, and who resided with his wife and three children at Litchfield, Ill., was killed. He was sitting on a camp stool on the rear platform and was crushed under the wrecked car.

The Champaign, one of the new chair cars on the Illinois Traction train, No. 83, was loaded with passengers and had just reached the outskirts of Staunton and stopped at crossing No. 14, where the McKinley line crosses the Wabash tracks, and discharged two passengers, Miss Lillian Hargrove and Miss Stella Fisher. Conductor Duncan says he looked up and down the tracks and, seeing no danger signaled Motorman Roodus to go ahead. Just as the car reached the switch track of the Wabash railroad a coal train of nine cars, pushed by an engine in charge of Engineer English and Conductor Sells, backed into the Champaign, striking it in rear of the center, knocking it off the tracks, turning it over and crushing in its side.

Nearly every person in the car was injured. The news of the wreck spread rapidly, and within a short time Coroner Crower was on the scene with Doctors J. T. Patterson, W. L. McBride and U. G. Auer, who dressed the wounds of those who were injured and placed them on other cars and sent them to their homes.

Coroner Crower summoned a jury later in the day and held an inquest on the body of Charles Doehmer, and took the jury out to the scene of the accident on a special car to view the wreck, which will be thoroughly investigated, in order to fix the responsibility for Doehmer's death.

Mrs. Rose Stigler and her 2-year-old daughter, Lorine, who were on the car coming from Bend to Staunton to visit friends, were among the few persons who escaped serious injury. Eye witnesses state that the little girl started down the aisle of the car just at the moment of the collision, and that Mrs. Miller, who was badly hurt, grabbed the girl in her arms and shielded her from the force of the fall when the car toppled over.

A Change in Bank Officers.

At a meeting of the directors of the Lamonte bank last Friday, the resignations of J. S. Fleming as vice president and director and W. C. Terry as assistant cashier of the bank were accepted, says the Lamonte Record.

J. A. Fleming was elected director and acting vice president. He will devote his time to looking after a portion of the business of the bank.

Several counties have instructed for Bryan. Ex-Governor Toole, the acknowledged leader of the democracy, has declared himself for Bryan, as has the organ of W. A. Clark, ex-United States senator. That an effort will be made to get a Johnson endorsement goes without saying, but the Bryan men are active, and the indications are that the latter will win out.

One county has instructed for Governor Johnson, this being Deer Lodge, one of the most populous in the state, containing Anaconda, the stronghold of the so-called Marcus Daly wing of the Montana democracy. The action of this county led to erroneous reports in the east that the state had gone for the Minnesotan.

New Mexico for Bryan. Santa Fe, N. M., June 9.—It ap-

pears likely that the democratic territorial convention when it meets in Roswell tomorrow to elect six delegates to the Denver convention, will instruct for Bryan. Among some of the delegates, however, there is a sentiment against a pledged delegation, and a fight against instructions may be made on the floor of the convention. General sentiment in the territory favors the Nebraskan, and no other candidate has been prominently mentioned.

### MUST PAY HIS WIFE'S ATTORNEYS

She Required to Be More Specific as to Incidents Related in Divorce Petition Filed in the City of St. Louis.

St. Louis, June 9.—Daniel Dillon and John S. Leahy, attorneys for Mrs. Lillian Handlan Lemp in her suit for divorce, are to divide \$3,000 fees among them unless Mrs. Lemp compensates them additionally of her own volition. Judge Kinsey yesterday fixed the fees of the attorneys at this figure and ordered William J. Lemp to pay the attorney this money on or before June 15.

Mrs. Lemp is allowed by Judge Kinsey to take the 8-year-old son, William J. Lemp, jr., to her father's home at Oconomowoc, Wis., to spend the summer, but Judge Kinsey, in a formal writing, sets forth that by the act of taking the boy out of the city she expressly contracts to return him to the St. Louis jurisdiction in time for the trial of the divorce suit, which is set for September 21.

Lemp may take the child from his mother every Saturday and keep it from 9 a. m. to 5 p. m., but he is not allowed to remove it from the place in which the mother resides. Lemp asked to be allowed to take the child to the home of his sister, Mrs. Pabst, in Milwaukee, and to keep it there overnight between Saturday and Sunday.

The reference to religion contained in the divorce petition of Mrs. Lemp will not be stricken out. Judge Kinsey yesterday ruled on the motion of Lemp's attorneys that the matter was proper and relevant. He however, ordered the lawyers for Mrs. Lemp to specify places, dates and names in the allegation that Lemp called his wife opprobrious names; that he asked her whether \$50,000 or

### THANKFUL PEOPLE.

They Are Found in Every Part of Sedalia.

Many citizens of Sedalia have good reason to be thankful for burdens lifted from aching backs, which they bore patiently for years. Scores tell about their experience publicly. Here is a case of it:

J. G. Riley, baker, of 114 East Fourth street, Sedalia, Mo., says: "I have been recommending Doan's Kidney Pills for over five years, and it has always given me pleasure to do so. I first procured this remedy at the W. E. Bard Drug Co.'s in 1901, and the relief I received from its use was most gratifying. My occupation is very hard on the back, and caused me at times to suffer severely from backache. I have had some light attacks of the trouble since using Doan's Kidney Pills, but an appeal to their use has always given me quick relief. I have no hesitancy in recommending them to those suffering from kidney complaint."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## THE BLEACHER KNOCKER

UNREASONABLE ATTACKS BY FANS HAS SPOILED MANY A GOOD PLAYER.

### NOT CONFINED TO ANY ONE CITY

Messrs. Casey, Rohe, Isbell, Evers, Taylor and Other Noted Players Have Suffered for This Same Reason.

Nothing hurts the ball player so much as jeers from the home bleachers. In the past there has been many a good player driven out of the business by sneering and even good-natured but cutting remarks from the fans who sit in the cheap seats at every game.

On the road the players can take all kinds of joshing or even angry talk from the fans and it hardly ever affects them, but let even a lone fan get after a player in his home town and that player will begin to go down hill at once, and unless the remarks are soon stopped the player will soon be sitting on the bench or else be released from the team entirely.

How often one hears the remark: "He was in bad in such and such a town and so was traded." The remark simply signifies that the player was forced out of the town because of the enmity of one or two, or perhaps a dozen fans, who disliked him and made it a point to taunt him day after day from their secluded seats in the crowd.

Often such players never know or even see the man who are casting the slurs at them, but just the same they are always conscious of their presence and fearful at all times of making mistakes that will bring down a volume of jeers.

Jimmy Casey, third baseman of the Brooklyn club, who is slated as manager of Toronto next season, was one of the players victimized by rowdy fans. At one time Casey was one of the most popular players in the National league, being at the time a member of the Chicago club. His very name seemed sacred to lovers of baseball, and he was cheered every time he came to bat. Under such conditions Casey was a powerful man for the Chicago club, both in batting and fielding.

But in the fall of 1904 and all through the season of 1905 Casey was a failure at third base in Chicago, and for no other reason than that he had picked up an enemy somewhere among Chicago's great mass of baseball fans. At first it seemed that there was only one man with a spite against Casey, but later on it appeared as if there were a dozen who took delight in hurling cutting words at the little third baseman. These fans seemed to have looked up Casey's past life, and if they could find anything that would be humiliating it would be sung out across the diamond to him during the game.

Casey's work began to slacken at once. He failed to make good with the bat, often fanning at critical times, simply because of the shots fired at him from the bleachers. In fielding around third base he became erratic and often heaved the ball wild or fumbled badly on easy grounders. His face wore a look of distress night and day, and he slipped about the streets and on the ball field as though being hunted and afraid of being caught.

The result was the trade of Casey among other players, for Scheckard, of Brooklyn, and Casey then went to the Long Island town and was once more the Casey of old. The first time he played in Chicago with the Brooklyn team he was the sensation of the game, and did all this under the very eyes of the men who had driven him from the Windy City. It didn't worry him then because he had no fear of them.

A number of other players have been removed from one town to another for the same reason. George Rohe, the erratic sub third baseman of Comiskey's White Sox, has suffered in the same way during the past year, and only that he was such a factor in winning the world's championship for the Sox against the Cubs the fall before kept him with the Chicago club during the past season.

Frank Isbell was driven to the bench a couple of seasons ago. He couldn't hit the ball because when he went to bat rowdy fans in the bleachers took delight in taunting him.

Two years ago Johnny Evers, the second baseman of the Cubs, came near falling through the remarks of but one lone fan in the Chicago bleachers. This same fan took delight in roasting Evers day after day about some widow the player was ignorant about, but he was so badly fussed he couldn't see the ball. The lone rooter soon disappeared and

Johnny again assumed his normal stride. Joe Tinker is another who suffered only this last season by the remarks of a dozen or more Chicago cranks who set about to put him out of the business.

In St. Louis Jack Taylor lost all his former cunning in the pitcher's box because he had some enemies who invaded the bleachers every day.

The New York fans have now started on McGraw, and while he is a tough little fellow who loves to fight, he will be driven out of Gotham sure if the fans start their firing again next season.

If the ball player could only detect the one or two men who are casting the remarks and be permitted to walk up into the bleachers and give the rowdy a thrashing, then he could probably go back and play the game of his life, but it is that inability to get even with the taunter that has the bad effect.

## GOOD TEMPLARS' ORDER

INTERNATIONAL CONVENTION WILL WIND UP ITS BUSINESS TODAY.

### THE NATIONAL BODY COMES NEXT

At Saratoga, N. Y., Where the Centennial Anniversary of the Founding of First Society Will Be Celebrated.

Washington, June 9.—Following the international convention of the Independent Order of Good Templars, which will wind up its business today, the national session of the order will begin its deliberations. Hundreds of distinguished temperance workers and leaders in the anti-saloon cause are here from all over the world and the two conventions will likely become historical landmarks of the temperance movement.

At the close of the convention here this week, practically all of the delegates will go to Saratoga, Springs, N. Y., where the centennial anniversary of the founding of the first temperance society will be celebrated, beginning next Sunday. The Saratoga assembly will, in all probability, be the most notable gathering of the anti-temperance in the history of the world.

It was Dr. Billy James Clark who planted the seed of the temperance movement in 1808 by founding a local temperance society at Moreau, Saratoga county, New York.

Little did he realize as he organized the first temperance society for the carrying on of temperance work, with the help of Rev. L. Armstrong.

Shakespeare

POSSESSED the highest type of literary genius. It is more than two centuries since he ceased to write, but when shall he cease to be read?

He grasped all things. He saw into the profoundest depths of human nature. Thoughts illimitable were at the point of his pen.

His personages live and move as if they had just come from the hand of a creator.

He was not a man of one idea, but part of the intense life of flesh and blood that seethed around him. Exuberant vitality of mind, body and soul was his supreme characteristic.

Personally he was a handsome, well-shaped man, of a merry temperament, abounding in energy and overflowing with health.

His favorite eating place in London was the celebrated Falcon tavern. Here men like Ben Johnson, Marlowe, Ford, Fletcher, Herrick, Raleigh, etc., met him daily.

These literary giants of the heroic Elizabethan age were in the habit of discussing the burning topics of their time (which included the colonization of America) over foaming tankards of beer.

"Wife, bid these gentlemen welcome. Come, we have a hot ventral passy to dinner; come, gentlemen, I hope we shall drink down all unkindness."—Act I—Scene 3—The Merry Wives of Windsor.

Gardner Storr and James Mott, that a century was to rally to his temperance banner multitudes of societies and millions of followers. Little did he and the others associated with him realize that that quiet and insignificant meeting which was held in his home at Moreau on April 30, 1808, was to provide the inspiration for a great world-wide temperance congress, and that at his home and at his grave there would gather multitudes pledged to the same work, who would there find new inspiration and new courage for pressing the battle against the forces of intemperance.

But such is to be the fact, and how fitting it seems that the society which Billy Clark organized and which is still in existence should be in charge of the preliminary arrangements for the coming centennial celebration. Such initial steps have already been taken and a contract secured for the great convention hall at Saratoga Springs. This splendid auditorium will seat 5,000 people and there is every likelihood that its utmost capacity will be taxed, and that overflow meetings will have to be held in the various churches of the place, the pastors all having agreed to recommend to their

official boards the placing of their edifices, free of charge, at the disposal of such temperance societies as may fittingly occupy them.

All temperance societies of whatever name or nature, throughout the entire world, have been most cordially invited to participate in this unique celebration. Each organization so participating will be a law unto itself, making its own program and responsible for its own utterances.

There will be assigned to each organization a day or days, as they may elect, the great hall or some church, as they may choose, and hotel accommodations secured, if desired.

### Woman's Relief

Cardui, the woman's remedy, has been known for many years as "Woman's Relief," since it has positively proven its great value in the treatment of womanly diseases.

'Twill help you, if you are a sufferer from any of the ills peculiar to women which can be reached by medicine. Why? Because it has done that for many thousands of other sick women, as grateful letters from them, received every day, clearly describe. Because its ingredients are exclusively vegetable, and contain no mineral or poisonous drugs.

For headache, backache, pressing-down pains,

nervousness, irritability, and other symptoms of general female weakness, Cardui has been found quick and safe relief.

Mrs. R. L. Denney, of Huntsville, Ala., writes: "I think Cardui is far ahead of anything for weak women. It does me more good than any medicine I have ever taken. I cannot praise it too highly. I think it is the best woman's medicine on earth." Sold everywhere. Try it.

## SCROFULA AN INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like," for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anaemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge.

### KNIGHTS TEMPLAR MEET

Expect 2,000 in the Parade at Grand Rapids, Mich.

Grand Rapids, Mich., June 9.—Hundreds of knights in brilliant uniform are thronging the streets and hotels of Grand Rapids this morning, the occasion of the gathering being the meeting of the Michigan grand commandery, Knights Templar.

There is every indication that the conclave, which will last three days, will be one of the most important Masonic events in the history of the Michigan order.

It is expected that nearly 2,000 knights in uniform will be in the grand parade. Other features of the conclave will be a reception, a ball and an exhibition drill. The business session of the grand commandery will be held on Thursday.

## MEET OF CONFEDERATES

THOSE WHO WORE THE GRAY  
ARE IN SESSION AT BIRMINGHAM, ALABAMA.

### BOYS OF '60 ARE OLD AND BENT

United Confederate Veterans Enjoying Their Annual Reunion—Large Attendance and Great Enthusiasm.

Birmingham, Alabama, June 9.—"Tramp, tramp, tramp, the boys are marching!" Again the United Confederate veterans, grizzled heroes who fought on many bloody battlefields for a losing cause are assembled in annual reunion.

But the "boys" gathered in Birmingham today are old and bent, and their "tramp, tramp, tramp," lacks its old time military precision and vigor, while the fearsome "rebel yell," which once ran out so defiantly, is become quavering and weak.

Death has thinned the ranks visibly since the general reunion in Richmond last year, and a hush of sadness has fallen upon the remnants of the vanishing hosts of the confederacy because of the recent death of Vicksburg of General Stephen D. Lee, commander-in-chief of the United Confederate Veterans.

The conclave commenced today in the Magic City will be a time for recounting past past victories and defeats, from which all the old sectional bitterness has departed, and for last greetings and partings between many of the aged veterans who realize that on this occasion they may answer to their last roll call on earth. Many federal veterans are here and are fraternizing with the boys in gray, the enmity between "Yanks" and "rebs" forgotten.

Despite the solemnity of the occasion, the war time enthusiasm of the old confederates will find expression in a big parade and in many spectacular features which will mark the encampment.

Thousands of Sons and Daughters of the Confederacy are here and will play a prominent part in the three day's program.

Birmingham citizens, with the true hospitality of the south, have thrown their doors wide open to the visitors and there will be many entertainments on a lavish scale. Thousands of dollars have been spent in decorating the city and all the principal streets are swathed in bunting and lined with flags.

San Antonio, Tex., and Atlanta, Ga., are the principal contenders for next year's encampment and delegations from the two cities will make a hard fight to secure the 1909 reunion.

Atlanta is in the field for the 1909 conventions of both the United Confederate Veterans and the Grand Army of the Republic, with the object of having them meet simultaneously in that city.

Objection is made to this plan on account of the fact that no city the size of Atlanta could possibly furnish adequate entertainment for such a gathering as would be attracted by a joint reunion of the blue and the gray.

## MRS. FILES INJURED

Was Thrown Over Dashboard, Under Feet of Horses.

While driving home after church last Sunday evening, Mr. and Mrs. W. E. Files met with an accident in which she was badly hurt, says the Lamonte Record.

They were seated in a buggy and as

they reached the southern portion of the city, the horse stopped suddenly by reason of another vehicle being partly across the roadway, the team attached to it being tied to a tree.

The suddenness with which their horse stopped threw Mrs. Files with great violence over the dashboard of the vehicle, and under the horse's feet, and besides several bruises she sustained three fractured ribs and a severe laceration of one of her limbs.

Dr. J. P. McCann reduced the fractures after she had been picked up and taken to the home of her parents, Mr. and Mrs. Thomas Terry, who reside near the place the unfortunate mishap occurred, and she is improving as rapidly as could be anticipated.

## J. H. Rodes on Local Option

A Prominent Manufacturer's "Revised Views"—The Reasons for His Change of Mind.

### The Two Sides of the Question Considered

When solicited, I declined to sign a petition asking the submission of local option to a vote of our citizens and was, indeed, opposed to agitating the subject, primarily on the ground that I was in doubt, at that time, whether or not it would be wise to adopt the measure, provided the necessary majority could be secured in its favor, and secondarily, because I felt that the measure would be defeated by a large majority if submitted.

I confess I had not given the subject any great thought but was predisposed to enter my protest both against the submission and the adoption of the law. When, however, the subject, notwithstanding my attitude toward it, assumed the form of an unavoidable issue that every one must settle, at least for himself, I set about seriously to determine in my own mind what course I should pursue.

With a natural inclination toward liberality in my views on public questions and a disposition to avoid controversy, I deliberately undertook to reason out the right position to occupy and to do so without prejudice or bias, other than the immature views of which I have just spoken. It was a slow process and I reasoned thus: "While I do not believe that the use of intoxicating liquors accomplishes any good, and while it is universally conceded that it is a never ending source of woe, crime and misery, poverty, debasement and want, still, is it not at the same time an evil that we cannot wholly eradicate, so long as it is lawful to manufacture it, and so long as it remains obtainable by those who have the money to purchase it?" Then I thought even though we adopt local option, we have not prohibited its use in the community, but have parted with a source of revenue which the present system of taxation affords. I therefore considered in my own mind if it were not really better to confine the sale of liquor to certain designated places within the limitations prescribed by the present law governing dramshops, rather than to permit it to percolate through the various avenues through which it would find its way to those who desired to consume it.

Such were my honest reflections in an endeavor to decide this issue. I believed they were not without weight. Again, I could but consider the fact that the state of Missouri had, at least, by this its adopted policy, permitted, if not induced some of our citizens to invest money in saloons on the faith of existing law with an implied promise of security in the investment. I was thus led to the consideration of the subject of the vested rights, if any, of those who have embarked in the liquor traffic. I confess that with these reflections in mind, I was perplexed as to what course I should pursue, or rather what course was right and just and ought to be pursued. Still the question had to be settled one way or the other, at least to my own satisfaction.

Being thus in the attitude of doubt, I was in a position to listen to and weigh with thoughtful attention all that has been said on both sides of this question. I have outlined in the above preface the process of reasoning through which my mind passed, wherein I reviewed the only two arguments from the standpoint of the citizen which, in my judgment, were worthy of consideration. Both of these arguments are strongly urged by the liquor dealers as sufficient in themselves to induce our citizens to vote for the continuation of the saloon license system. Tentatively, and without extended consideration, which I have since devoted to this subject, I was, as before indicated, inclined to concur in this conclusion. I am aware that many other arguments and reasons are assigned by the advocates of the continued open saloon that are being pressed, and that, too, not without effect upon some, which are so palpably and manifestly such mere base appeals to prejudice as to deserve rather to be spurned than answered. They do not raise above the dignity of the mere tricks and artifices, the distinct purpose of which is to cloud and befog the issue rather than clarify and elucidate it by an address to the understanding. Among such is heard "Addresses to the laboring men," in which impassioned appeals are made in an attempt to awaken the feeling that this is a move on the part of the well to do class to deprive them of their liberty of buying their whiskey by the drink and in small quantities, thus denying them the privilege of drink at all; while the well to do class will still have an open bar in their homes and will not suffer any deprivation. By such appeals, I will not say arguments, I believe they discount the intelligence of the class of citizens addressed, just as if the man who earns his living by labor had not the intellect to go to the very root of a question which affects all classes of citizens alike, whether in factory or bank; as if they could not discern the fact that the inordinate use of liquor is an unmitigated curse to millions of their fellowmen; and that pestilence, famine, wretchedness and crime, widows' tears and orphans' sighs and debauched and shattered manhood was not visible in the ranks of the rich and the poor alike.

Again, and more often than any other, perhaps, is heard the financial argument of the great loss of revenue to the city and the vacant business houses that would be tenantless when the saloons were closed. One gentleman bearing the reputation of a good financier answered the revenue argument as follows: He said, in effect, the thirty saloons admit they sell to our people annually \$350,000 worth of liquor, for which they pay in revenue to the city \$12,500. He said he could not quite understand how the city could figure out that it was a good thing to levy a tax of \$350,000 annually on its people only to get back a revenue of \$12,500. No one, so far as I know, has come to his aid in the solution of the problem. Another speaker of prominence said he scorned to treat the subject from a revenue producing standpoint, however munificent and princely might be its returns. That to do so was to debauch and debauch the moral sense and to weigh out so many dirty dollars as the price of human suffering and woe, and to enshrine in the heart the gilded form of mammon kneeling at the throne of Baal.

I could not but give consent in my heart that he was right in his contempt and scorn for the paltry pennies filched from the pockets of the poor.

There is in progress a great war of extermination against the liquor traffic, continent, if not world wide, that is moving steadily on with irresistible stride that knows and offers no compromise on any ground and the more one reflects the deeper becomes the conviction that the only proper attitude for mankind to assume against this evil is one of uncompromising hostility to every phase of liquor dealing that lends to it any semblance of decency or respectability. For my part, I have concluded that the policy of the state to license saloons for the sale of liquor is wrong, especially by retail, and I may add, criminally vicious in its effects, because it thus places under the protection of the law a known and universally admitted enemy of the home, the state, the nation and mankind in general.

If this is the correct conclusion, and I am forced to believe that it is, then it clearly becomes our duty, if we are to be governed by right motives in our relations toward society, to use every means to correct the policy of the state in its dealings with this subject. Existing laws are

## THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

but the expressions of the will of and convivial habit that leads the majority of the representatives of victim on.

The people, and it is always in the "Vice is a monster of so frightful power of the people to elect representatives that will reflect their views.

But, mark you, while it may be a mistaken policy of the legislature to provide for the licensing of saloons at all, still, the legislative body has enacted a provision of law whereby a majority of the people of all counties and certain municipalities of which Sedalia is one, may determine for themselves whether the saloon may ply their vocations therein.

### Sedalia Becomes a Legislative Assembly.

The question is thus brought home to our people and made one for their own determination. We are all for this purpose, a member of a municipal legislature to enact, or refuse to enact, a law governing our policy on this subject. It cannot be escaped, we must go on record as voting for the open saloon policy of against it.

We must vote and assume the responsibility, or play the coward. It is a matter of grave personal responsibility which should not be treated lightly. How many of our citizens would, is asked, sign a petition for a saloon license? How many would say, "I'd rather you would see some one else. While I may take a drink occasionally and sometimes go in a saloon, I never signed a saloon petition in my life and never will."

Have you read the ballot? It reads: "Against the sale of intoxicating liquors." "For the sale of intoxicating liquors." Erase the clause you do not want. There's no escape; it's vote or skull.

If you erase the first line your vote reads: "I vote for the sale of intoxicating liquors." You, as a member of the municipal legislature of Sedalia, have deliberately and affirmatively, voted for a law that authorizes the sale of intoxicating liquors in Sedalia for four years to come. You have made a record in the legislature of Sedalia you cannot efface.

The same rule of conduct that forbids you to sign a saloon license forbids your voting to license all saloons in the city for four years. Such is the responsibility that rests on each individual.

The silliest reason I have heard was by a young man the other day. I asked him how he was going to vote. He said: "I don't care, myself, one way or the other; but most of my friends are for the vets, and I am going to vote 'wet, too.'" I said to him: "My dear boy, that is the greatest reason you could offer why you should vote dry." He said, "they take a drink occasionally, but hardly ever get full." I knew this boy himself drank, and knew his parents didn't know it. And right here lies the great vice of the open saloon. It is the constant lure that leads to drink. It is a snare for the weak and unfortunate. It's the fancy drinks, the gilded bars, the social

any it. It is natural that they make their struggle for existence, but all obstacles must yield before the ever-increasing speed of the onward march of civilization and progress.

It is the inexorable, and civilization and progress cannot wait. It is unfortunate and a matter in which our sympathies may be involved that those now engaged in the traffic must suffer some financial loss, but it must be remembered that they voluntarily took their chances of the very conditions arising, not under a new law, but a law that has been on the statutes for eighteen years. They knew, when the invested, that they did so subject to the adoption of the local option law that could terminate their business at any time the majority of the people said, "Halt."

It is a part of their contract with the people under the law when they embarked in this uncertain and doubtful enterprise. They accepted their franchise subject to the will of the majority. If they have lulled themselves into a sense of false security that they could not, by united effort and the strong aid of the Liquor Dealers' association, defeat the measure when it arose, this was and is only a part of the task they undertook and a risk they assumed, and they cannot now be heard to plead that it is a confiscation of property. They, as we say in law, "estopped from entering a plea for sympathy."

But it is folly to say that men who are as competent as many liquor dealers are cannot earn money except in the liquor business. Some of the larger dealers have grown rich and are financially able to embark in substantial business enterprises of which they will themselves be far more proud and secure returns as profitable and far more beneficial to mankind.

Such is the process of reasoning through which my mind has passed. They themselves cannot successfully refute it, and I doubt if they will deduce.—J. H. Rodes.

## WOULD SEVER RIGHT ARM

BEFORE HE'D VOTE FOR EITHER  
OF THREE CANDIDATES  
FOR GOVERNOR.

## SO SAID REV. U. G. ROBINSON TODAY

State Convention of the Anti-Saloon  
League in Session at the First  
M. E. Church—A Report of  
the Proceedings.

In the presence of about twenty-five delegates to the state convention of the Missouri Anti-Saloon league, which opened this morning at the First M. E. church, the Rev. U. G. Robinson, state superintendent, declared he would sever his right arm before he would vote for William S. Cowherd, of Kansas City, for governor. He also declared his opposition to David A. Ball and H. F. Stapel, although not in such forcible terms as he referred to Mr. Cowherd.

The convention assembled at 10 o'clock, and the committee on organization recommended that William H. O'Brien, of St. Louis, be selected as chairman of the convention, and S. E. Botsford, member of the house of representatives from Knox county, be secretary. The report was adopted, and Mr. O'Brien, who arrived this morning from Moberly, assumed charge of the convention.

The Rev. R. T. Smith, chairman of the committee on organization, in his report, recommended the appointment of a committee of three on business of the convention, and an additional committee of five on resolutions, the appointments to be made by the state superintendent of the league, subject to the approval of the convention.

When this report was unanimously adopted it was apparent that no opposition would be offered by the followers of Dr. W. B. Palmore, the prohibition party nominee for president of the United States.

Dr. Palmore left this city last night for Fayette, and J. H. D. Stevens, the vice-president of the organization, went away on a later train. None of their followers put in an appearance at the meeting this morning.

Superintendent Robinson then announced the committees. The business committee is composed of R. T. Smith, of St. Louis; S. E. Botsford, of Knox county, and James Parsons, of Sedalia.

The committee on resolutions is made up of A. L. McCawley, W. F. Parker, A. Bushnell, R. B. Templeton and W. H. Markley.

Superintendent Robinson then submitted his report, in which he gave a history of the league, and his recommendation that a committee of three be appointed to wait on a similar committee of three to be appointed by Messrs. Wallace, Whitecotton and Evans, the three gubernatorial candidates whom the organization can consistently endorse. The committee of twelve will name the candidate who will make the race.

Mr. Robinson went on to state that the fight here was only a part of the battle which is being waged. The goal is state-wide prohibition in 1910, he declared, and the league must make its fight along that line.

Superintendent Bushnell, of the Kansas City district, followed Superintendent Robinson, and the convention adjourned for lunch, after receiving the report of A. L. McCawley, counsel for the league, recommending liquor legislation for the next session of the legislature.

At the afternoon session Hon. Jas. H. Whitecotton, of Paris, Monroe county, in a speech, said that during his twelve years of association with the legislature he knew of only two members of the lobby who were not lined up for one candidate, and that one's name could be learned with a little inquiry.

"The organized liquor interests and the public service corporation interests have already selected their candidate, and it is too late to name any one for that reason," Mr. Whitecotton continued. "I am for the schools and churches in preference to the domineering of the saloons and corporate interests. I stood for the people, and that is why I am tabooed by the special interests."

American, and will not sacrifice my principles for the party."

Before adjournment this afternoon the committee on resolutions will make its report.

Judge W. H. Wallace, of Kansas City, and W. H. O'Brien, vice president of the Antisaloon league and supreme chief of the Knights of Father Mathew, arrived today to attend the convention.

## Six Years for Horse Stealing.

Isaac Jackson, convicted of horse stealing, was sentenced to six years in the state penitentiary by a jury in the Pettis county criminal court yesterday. The jury deliberated about thirty minutes.

## KATY HAD A LANDSLIDE

IT OCCURRED AT PROVIDENCE,  
ON ST. LOUIS DIVISION,  
LAST NIGHT.

## ALL NORTH AND SOUTH TRAINS LATE

Company Bridge Over the Canadian  
River in Oklahoma Washed  
Out—The Wrecking Crew  
Was Sent There.

A landslide at Providence, on the eastern division of the M. & T. last night, caused Katy flyer No. 5, southbound, due here at 3:17 a. m., to arrive at 9:15 o'clock this morning. Thirty-five passengers on the train were given breakfast in this city.

For the same reason, Katy train No. 3, southbound, due here at 8:50 a. m., arrived at 9:30 o'clock. No. 2, due here at 8:25 a. m., arrived an hour late today, due to high water south of here, while No. 4, last night, due here at 8:05 p. m., arrived at 10:15 p. m.

The continued heavy rains have materially delayed traffic on the M. & T. A 100-foot bridge over the Canadian river in Oklahoma was washed away yesterday, and the wrecking crew, pile driver and outfit were sent south from Franklin Junction were sent south last evening, passing through here shortly after 7 o'clock.

Rapid progress was made in replacing the Red river bridge, north of Denison, Texas, a portion of which was washed away some time ago. Freight shipments which have been held up since the bridge was washed out are being sent south and the bridge was crossed today.

## DEATH CAME SUDDENLY

Edward W. Brown, Colored, Died During  
the Forenoon.

Edward W. Brown, colored, died suddenly of a complication of diseases at apartments over 305 West Main street, at 9:30 o'clock this morning, aged about 35 years.

At 7 o'clock this morning Coroner Miller was summoned to the Star saloon, called there by the illness of Brown.

After administering to the patient Dr. Miller left, and two hours later he was again called to Brown's apartments, but the patient had expired. Coroner Miller decided an inquest unnecessary.

Brown leaves a wife and mother residing at Alma, Mo. Funeral arrangements have not been made.

## Entertained for House Party.

Miss Agnes Scott Longan entertained the Five Hundred club at her home on West Broadway this morning in honor of the five young ladies who are visiting her—Miss Gaines and Miss Kirtley, of Kansas City; Miss Turpin, of Nevada; Miss Booth, of Columbia, and Miss Miller, of Queen City, Mo.

Cards were played in the first part of the morning, Miss Helen Spencer and Miss Gaines each winning a beautiful pair of silk hose.

Miss Gaines and Miss Longan each gave several vocal selections afterward, which were beautifully rendered.

Refreshments of ices and cake were served.

## Elks Celebrate Flag Day.

Sedalia lodge No. 125, B. P. O. Elks, will observe Flag day at the Sedalia theater at 3 o'clock Sunday afternoon, the 14th inst. Hon. James A. Reed, ex-mayor of Kansas City, will be the orator of the occasion.

## IS MUCH EXAGGERATED

DRY VICTORIES NOT SO LARGE  
AS IT HAS BEEN THOUGHT  
THEY WERE.

## REVEALED BY CLOSE INVESTIGATION

Only 147,000 of the 680,000 Voters of  
Missouri Have Voted Against  
the Sale of Liquors in the  
Last Eight Years.

St. Louis, June 9.—An impression has been made on the minds of Missourians concerning an alleged temperance or prohibition wave which is not sustained by the facts. These facts and figures are absolutely reliable and from official sources published recently in the Globe-Democrat.

While the Anti-Saloon league has been very active for several years and its state leaders have reported many dry victories, the full truth about the elections held and the vote cast has not been made known.

Since 1900 the Anti-Saloon people have caused 117 elections to be held—ninety-one in counties and twenty-six in cities of more than 2,500 population. In seventy-two counties the drys won and in nineteen counties the wets won. The drys carried fifteen cities and the wets eleven.

In the counties and cities where these elections were held the total vote for governor in 1900 was 374,125. The total vote cast at these 117 elections was only 254,556, of which the dry vote was only 147,000, and the wet vote 108,556, while 124,295 voters did not vote at all on the saloon question.

In short, the drys have polled but 147,000 votes out of 374,125, and have a net majority in the 117 elections of only 38,500. This majority might be regarded as quite significant but for the facts involved. In the first place, in about forty of the ninety-one counties in which elections were held there were no saloons, and there was no effort being made to secure license, hence those counties voted dry almost without opposition.

In the second place, a number of these dry counties, like Pettis, for instance, have saloons in one or more cities, and have never had any saloons to interest them, except one or two, or perhaps three in smaller towns or at points where there was no police protection. This explains why only 293 saloons were closed by the eighty-seven elections, which resulted in dry victories. Of these eighty-seven dry victories, 72 fifteen were in cities of more than 2,500 population, with about eighty-five saloons. Chilled by alone having thirteen. In fact, the dry victories which have been used to create the impression that Missouri is going dry have been, almost without exception, in dry territory, in communities that abolished saloons twenty years ago, and have not favored them since, except at intervals or under high license and extraordinary conditions.

Of the 680,000 voters who cast their ballots in 1900 for governor, only 147,000 have voted against the sale of liquors in 117 elections held in ninety-one counties and twenty-six cities during the eight years past, while 108,516 have voted for the sale. A little more than two-fifths of a total of 374,125 who have had opportunity to vote have cared to vote against the saloons, while more than 300,000 voters, more than the total democratic vote of the state in 1904, have not been heard from at all.

A greater wave swept the state in 1887-88, when 102 elections, held between July, 1887, and June, 1888, resulted in dry victories in forty-nine counties and thirteen cities, closing 253 saloons and making dry some of the larger cities, such as Springfield, Carthage, Maryville, Macon, Clinton, Trenton, Cameron, Marshall, Lamar, Kirksville, etc., and many of the cities, especially the larger, such as Springfield and Carthage, have since voted wet and have saloons.

The vote in these 102 elections in 1887 and 1888 was 193,781, out of a possible vote of 271,417, about 77,600 not voting at all. The aggregate dry majority was 21,092, the net dry majority 6,120. At that time there was less than 2,500 saloons in the entire state, including St. Louis. Now there are 3,994, paying an annual revenue to the state, the counties and the cities of \$3,611,205.

These facts do not indicate that Missouri is going dry or that the Anti-Saloon people have captured the state. They have not done as well in

their dry work, comparatively, in the eight years of the passing decade as they did in twelve months twenty years ago, before the Anti-Saloon league was organized and when the local option law was first offered the people.

## Moving to the Porter Building.

C. M. Roark and J. D. Donnohue have purchased the plant of the Sedalia Chemical Co., 811 West Main street, and will remove it to the Porter building, next door to the McGinley grocery store.

Mr. Roark is to conduct the business, which will be the manufacture of furniture polish, insect destroyers, etc.

## GOULD LINE'S TROUBLES

WHEELING AND LAKE ERIE IS  
PLACED IN HANDS OF A  
RECEIVER.

## ACTION OF THE FEDERAL COURT

Vice President and General Manager  
Worthington Takes Charge at  
Once on the Petition  
of the Creditors.

Toledo, Ohio, June 9.—On claims of creditors amounting to \$8,791,047 and claims due the National Car Wheel company of New York, the Wheeling & Lake Erie road was thrown into the hands of a receiver last yesterday, the appointment being made by United States District Judge W. W. Taylor. The petition alleges the total indebtedness of the Wheeling to be upwards of \$8,000,000.

B. A. Worthington, of Pittsburgh, vice president and general manager of the Wheeling, was appointed receiver for the road, and immediately qualified by filing a bond of \$100,000. It is said that the troubles of the Wheeling & Lake Erie road have their foundation in the building of the Wabash-Pittsburg terminal. This work was started under President Ramsey, who believed he could put the Pittsburgh extension through for \$16,000,000, but it has already run up to over \$40,000,000 with the work still unfinished.

Other matters which are said to have precipitated a receivership are a note of \$1,000,000 due in August and an \$8,000,000 mortgage which falls due within a few months, with no funds available to meet them.

## THEY WERE HELD FOR COURT

Man Who Broke Into Farley's and the  
Ca: Thieves.

At the preliminary examination this morning before Judge H. M. Gresham, sitting as ex officio justice of the peace, Floyd Mitchell, a native of Mississippi, pleaded guilty to breaking into the home of E. B. Farley, 700 West Sixth street, and was held to the criminal court on a bond of \$500.

Before the same judge, Frank Sanfrisco, Barney Grounds, alias Barney Foster, and John McDonald, freight car thieves, were given a preliminary hearing, the trio being held to the criminal court in the sum of \$500 each.

## MANY PASSENGERS INJURED

Wabash Railroad Had Serious Wreck  
This Morning.

Buffalo, N. Y., June 9.—Early today on the Wabash railroad near Stevensville, Ont., three cars were derailed and a score of passengers injured, two seriously. All of the injured are said to be foreigners returning to Europe.

## Parade Will Start at 3 O'clock.

A second street parade to emphasize the standing of the "drys" in this city will be given on the public streets tomorrow afternoon, to begin at 3 o'clock.

Rev. T. R. Gray is authority for the statement that tomorrow's parade will far surpass in numbers the parade of several days ago, when men, women and children aggregating several hundred paraded the streets.

Mr. Belmont's Condition Critical.  
New York, June 9.—The condition of Oliver H. P. Belmont is extremely critical today.

## HAS REACHED THE LIMIT

REPORTS ARE THAT FLOOD HAS  
GONE TO THE HIGHEST  
POINT.

## WORSE DAMAGE HAS BEEN DONE

It is Now Thought That the Waters  
Will Begin to Recede and Fur-  
ther Damage is Not  
Looked for.

Kansas City, June 9.—Prospects for an early abatement of the flood conditions along the Kaw river in Kansas, and at Harlem, Mo., across from Kansas City, and at points above here on the Missouri river were very favorable today.

This morning the Missouri river had risen to more than four feet above the danger line, and the Kaw lacked but two feet of leaving its banks. Both rivers continue to rise, the Kaw less rapidly than the Missouri.

Patrick Conner, the local weather forecaster, said: "There is less cause for expecting a higher gauge today than yesterday, and there is little likelihood of the Kaw rising much higher. From several points along its principal tributaries come reports of flood abatement this morning."

At Topeka the crest of the flood has been reached and the report is that the river has fallen three and one-half inches.

The rise in the Missouri extends only to Omaha, and at that point the waters are either at a standstill or slowly receding.

People living in the river districts of Argentine and Kansas City, Kan., are still moving out today, and in some parts the whole neighborhood is deserted.

## Seven Thousand Homeless.

Topeka, Kas., June 9.—Seven thousand people have been driven from their homes in North Topeka by the flood in the Kaw river. A major portion of these have found shelter in Topeka proper, where the Auditorium, school buildings and private homes have been opened to them. No loss of life is reported, but there has been much loss by moving and the entrance of muddy water in the houses.

## WED BY FR. NEIBERG

Mr. Lincoln P. Pierce and Miss Kathryn L. Connor This Morning.

Lincoln J. Pierce, employed by the Bell Telephone company, and Miss Kathryn L. Connor, formerly chief operator of the long distance board of the Bell Telephone company, were married by the Rev. Fr. S. Neiberg at a nuptial mass at Sacred Heart church at 6 o'clock this morning.

S. R. Smith and Miss Nell Connor served as best man and bridesmaid, respectively.

The bridal couple left this afternoon for Kansas City to spend their honeymoon, after which they will return here to reside.

A party of twenty-five lady and gentlemen telephone employees assembled at the train, each carrying numerous placards, with which they adorned the coach occupied by the bridal couple.

Showers of rice were thrown on the bride and groom, who vainly endeavored to evade the tormentors, but Shields Smith, accompanied by his band of assistants, kept things red-hot until the train pulled out.

## CLARENCE DARROW

America's Foremost Defender of  
Human Rights

Will speak at the New Sedalia theater Wednesday, June 10, at 8 o'clock p. m., on "Personal Liberty," under auspices Sedalia Federation of Labor. Everybody welcome. Seats free. Women cordially invited.

Seats on the stage will be reserved for members of organized labor. Tickets of admission to the stage can be procured by applying to the secretary of the Federation of Labor, E. T. Behrens, 110 East Third street.

## Sedalian Gets Highest Honors.

Mrs. Mary E. Condon, 1209 East Ninth street, is in receipt of a postal card from her oldest son, William, student at St. Joseph's college, Rensselaer, Ind., who graduates on the 17th inst.,

stating that he graduates with the highest honors of his class. Last year at the closing exercises of the college William received the \$25 gold medal for first prize on his essay, his subject being "A Silent Influence in English Literature."

## Taken Ill on a Train.

Miss Elvin Ellis, registered at the Huckins hotel from Los Angeles, Cal., was taken ill on Missouri Pacific train No. 1 while coming to this city yesterday afternoon and was met at the train by a local physician. She was taken to apartments at the hotel, where she was soon revived.

## HAD SUIT OVER A CORPSE

CASE FROM JASPER COUNTY IS  
DECIDED BY THE COURT  
OF APPEALS.

## FATHER BURIED THE BODY OF SON

Wife Was in a Foreign Country, but  
Is Now Denied the Right to  
Disinter and Rebury the  
Body of Husband

Kansas City, Mo., June 9.—Has a widow who has been denied by stress of circumstances the sad privilege of burying her dead husband the absolute legal right, afterwards, to disinter the body from the place from which it was interred in a proper manner by the next of kin, for the purpose of a reburial in a place more to her liking? This is the rather unusual question that was involved in a suit which originated in Jasper county and upon which the Kansas City court of appeals handed down a decision yesterday. The court says:

"We must hold that the widow, had she been present, would have had the right, enforceable in a court of equity, to control the burial of her husband, and to select the place of his interment, regardless of the wishes of parents, at whose house he died."

"But she was away in a foreign country, was ignorant of his death, and, therefore, was unable to assert her right, or what was more important, to perform her duty."

"It is immaterial whether or not her disability was caused by the harsh neglect of her father-in-law. Whatever the cause, she was not there, and the right of a dead man to an orderly and decent sepulcher would not brook delay."

"That right was satisfied fully by the father, on whom the duty devolved, and we perceive no good reason for permitting her to remove the body from its resting place."

## RIDDLE-DANIEL NUPTIALS

Rev. Martin Will Perform the Ceremony This Evening.

Rev. S. S. Martin went to Warsaw this morning, where, at 8 o'clock tonight, he will unite in marriage George D. Riddle, a popular young Sedalia boy, and Miss Ethel B. Daniel, a former Sedalia girl, now living at Warsaw.

The ceremony will be performed at the home of the bride's mother, and afterward the couple will come to Sedalia to go to housekeeping.

## TWO PERSONS KILLED

Apartment House in Washington Col-  
lapsed With Disastrous Results.

Washington, June 9.—Two persons were killed, two seriously injured and a number sustained slight injuries as the result of the collapse of an apartment house in the course of construction at the corner of Twentieth and P streets N. W. today.

## Two Rulers Met as Scheduled.

Reval, June 9.—The meeting between King Edward of England and Emperor Nicholas of Russia took place here today with all due formality.

## Compromised a Contest.

Chicago, June 9.—It has been agreed by the members of the republican national committee to seat both delegations from Louisiana, allowing Ind., who graduates on the 17th inst.,

## CONFESSED TO MURDER

COUNTY CLERK AT MUSKOGEE  
ADMITS KILLING HIS  
ENEMY.

## THE CRIME HAPPENED LAST NIGHT

Trouble Aroused Over a Controversy  
Regarding the Location of the  
County Seat in the Recently  
Made State.

Muskogee, Okla., June 9.—Ed C. Julian, county clerk, who has been held for the murder of "General" Dunlap at Eufaula last night, made a full confession today. He claims that Dunlap entered his room and fired first. Both the cities of Eufaula and Checotah are under arms, and the governor has been appealed to to preserve order.

City Marshal Woods, who was shot Sunday by James Parmenter, died today.

About 9 o'clock last night "General" Dunlap, who was a guard of the records in the court house against the Checotah county seat raiders, was shot and killed in a hotel here. Several persons said they had heard Edward C. Julian call Dunlap to a room in the hotel. Several also said that they saw Julian leave the room after the shooting. Every room in the building was searched and Julian was found hidden. He begged for mercy and was trembling with fear.

Mack Hart, a traveling man, who occupied the room next to that of Julian's, says he heard Dunlap come to Julian's door. Three shots were fired, but only one took effect. The tragedy has stirred Eufaula, and for a long time there was fear of mob violence.

In the afternoon Dunlap was heard to say that he anticipated trouble with Julian.

Dunlap was a deputy under Marshal Bennett for years. At one time he was tried for murder. He shot a man while on the marshal's force.

## TWO "WET" AND ONE "DRY"

The Results in Three Local Option  
Elections.

The "wets" won in the local option election at Excelsior Springs Monday by a majority of 45.

Clark county, of which Kahoka is the county seat, voted "wet" Saturday by 175 majority.

The "drys" won at Cameron Monday by a majority of 56 in 740 votes cast.

## Wets Ahead at Moberly.

Special to the Democrat-Sentinel.  
Moberly, Mo., June 9.—The indications are that the wets will win a decisive victory here today. Their majority will be between 300 and 500 and possibly more. The drys ran special trains from Salisbury and New Franklin and interminable points and gave three big parades before dinner, but in the afternoon abandoned the parade feature. The wets were very active, keeping a dozen or more carriages busy all day bringing in the votes. The saloons were closed all day.

## WILL IT BE CORTELYOU?

Indications That Taft People Favor  
His as Running Mate.

Washington, June 9.—Indications are multiplying that Secretary Cortelyou will be advanced by President Roosevelt and the Taft forces at Chicago as a candidate for vice president. Secretary Cortelyou declined to discuss the matter today, giving as a reason that his native state already has in the field a possible candidate for the presidency in the person of Governor Hughes.

## Massachusetts Man for Second Place.

Washington, June 9.—It has been determined by friends of Governor Curtis Guild, of Massachusetts, that his name will be presented to the Chicago convention as a candidate for the vice presidency.

## Cannon Says He Is Still in Ring.

Chicago, June 9.—Speaker Cannon arrived in Chicago today and declared himself a candidate for president, until they stop voting or elect some one else.

BE CALM!

The local option contest is now at  
fever heat and from the discussions  
heard on the streets a great deal of  
feeling is being engendered.

We heard the lie passed today.  
This is all wrong. Be consistent. Be  
liberal. Concede to the other fellow  
the right to have an opinion and to  
express it just the same as you ex-  
ercise that right yourself.

REVIEW OF THE SITUATION.

In the question as to whether it is  
best or not for Sedalia to place itself  
under the operation of the local op-  
tion law, the moral question involved  
does not, in our opinion, overshadow  
that of business expediency. Is it  
best for Sedalia to adopt such a  
measure? We do not think so.

It is not our purpose to defend the  
liquor business as a business, for we  
are all agreed that the traffic is not  
conducive to good morals in a com-  
munity, and if it were possible we  
would indeed be glad to see it abso-  
lutely wiped out of existence, not  
only here in Sedalia, but in the state  
and nation as well.

But as long as the national govern-  
ment sanctions the manufacture of  
alcoholic beverages and issues men  
licenses for its sale, just so long will  
it be sold; and the adoption of a lo-  
cal option law will not do away with  
the use or sale of it here in Seda-  
lia. It has failed most signally in oth-  
er places, where conditions for en-  
forcing the law are much better than  
here.

Both Memphis, Mo., and Columbia,  
Mo., referred to in Sunday's Demo-  
crat-Sentinel, are instances of the  
operation of this law. What reason,  
then, have we for believing that the  
result will be any different here? None  
whatever, and it will not be different.  
Therefore, if we are to have the  
sale of the liquor, let's have the  
revenue, too, but make it high, twice  
as high as now, and force the dives

out of business, and then see that  
the remaining saloons obey the laws  
now on the statute books.

High license and a strict enforce-  
ment of the law will control the traf-  
fic and reduce its evil effects to a  
minimum.

It is foolish for us to close our eyes  
to the fact that if local option be-  
comes operative there will be a de-  
crease in our revenues, and it is  
child's play to refuse to consider the  
result, or to pass it by, merely say-  
ing the deficit will be made up, and  
not say how. Our city council has  
not been able to accomplish what  
has been demanded of them with the  
money now at their disposal; cut off  
a big slice of that and it simply  
means a step backward for Sedalia.

The city is already heavily involv-  
ed as a result of trying to accom-  
plish too much with too little, so  
there is but one thing for the coun-  
cil to do—reduce expenditures.

How? As has already been suggest-  
ed, we can do away with the street  
lights. Yes, we can. Many of us re-  
member what a terrible condition pre-  
vailed here several years ago, when  
we attempted to economize in this  
direction, operating under what was  
known as the moonlight system. In  
those days the lights were not turn-  
ed on at all if the moon was sup-  
posed to shine, and were dispensed  
with entirely after 1 o'clock a. m.  
We also remember that it was not  
safe for a woman to be on the streets  
after dark unless accompanied by an  
escort.

One such crime as is herein hinted  
at would be more damnable than all  
the drunks that local option advo-  
cates claim they would save in ten  
years, and several such crimes  
did occur right here in Seda-  
lia, and men, too, preferred the mid-  
dle of the streets to the sidewalks.  
We remember also how we had to  
hire Billy Steele to prosecute, and  
buy blood hounds to chase the fiends  
to cover.

It is not impossible or this state of  
things to occur again.  
If we do away with any of our fire  
fighting ability the insurance rates  
will certainly be increased; some of  
the companies, doubtless, will refuse  
to insure us at all.

Our street force is now too small,  
but it could be reduced or dispensed  
with entirely. Imagine, if you can,  
what a condition our streets would  
be in in a short time, if entirely un-  
cleaned and not repaired. Their con-  
dition is none too good at present.  
Then think, too, how hard it would  
be on the worthy laborers who gain  
their livelihood from this source.

No, let us keep our streets in re-  
pair and clean our alleys. Remember  
what a fuss we made about this on-  
ly a few weeks ago. Shall we take a  
step backward along this line?

Our police force can not be reduc-  
ed. We will need them all to try to  
keep down the bootleggers, joints and  
dives; and they will be busy, too.  
The insurance companies expect a  
certain amount of fire protection  
from the police; reduce this force  
and we are in trouble with the insur-  
ance people at once.

The county clerk informs us that  
half of the revenues derived from  
the liquor licenses by the county is  
turned over to the six-mile road dis-  
trict commissioners, and that last  
year the amount so turned over to  
this fund was \$8,777.52. Think what  
a calamity it would be to Sedalia to  
deprive those commissioners of this  
amount of revenue. Our business in-  
terests can not afford to have this  
work interfered with. Good roads  
mean more to Sedalia than any of  
our modern conveniences. Only a  
short time ago this work was en-  
larged to cover twelve miles instead  
of six. Shall we consent to stick in  
the mud after having taken this ad-  
vanced movement? No, indeed, we  
can't afford to take this backward  
step.

So view the situation as you will  
and it is anything but pleasing. What  
are we to do? Why, vote against the  
adoption of the local option law.

Sedalia is not suffering from any  
crime wave at present, and consid-  
ering the financial crisis through  
which we have passed and the fact  
that both our railroad shops are  
closed, we are in a fairly good condi-  
tion. Why, then, vote a change that  
may not benefit us at all morally, but  
is certain to be harmful to us finan-  
cially? We can not afford to experi-  
ment now; let well enough alone.  
There is another thought we want  
to bring to the minds of all who be-  
lieve in fairness and absolute right  
between man and man: Is it right  
to destroy the value of the property  
of the men now engaged in the li-  
quor business? We know it is legal,  
but is it right? Their business is le-  
galized by the statutes of Missouri,  
and many of them have their all in-  
vested in it.

Some of the best friends Sedalia  
has are engaged in the business. They  
have always given liberally when  
called on and have done much to-  
ward making our town what it is—  
a live, up to date city. Remember  
the Scriptural injunction, "Do unto

REGARDING STUDENT VOTING.

Editor Democrat-Sentinel:

Will you kindly advise me through  
the columns of your paper if the stu-  
dents attending the business colleges  
here, but whose homes are in other  
places, are entitled to a vote in the  
local option election here Thursday  
—A Subscriber.

The courts have held that students  
whose homes are not in the city  
where they are attending school are  
not permitted to vote there, as their  
domicile remains in the place from  
which they came.

They may go back there and exer-  
cise the right of franchise and do not  
lose it by residing elsewhere for the  
purpose of obtaining an education.

This means that adult students  
who are in Sedalia attending school,  
but whose homes are not here, can  
not vote here, but any Sedalia young  
man who is attending school else-  
where may return here and vote at  
this or any election.

PRIEST SAVES HIS FLOCK

Church Is Emptied of 1,800 Persons  
Without Injury.

Berlin, June 9.—An attempt was  
made yesterday to burn the old St.  
Paulus Catholic church at Moabit, be-  
longing to the Dominicans, which  
was crowded with people assembled  
to hear a sermon by the famous Do-  
minican monk, Bonaventuri. About  
1,800 persons were present, includ-  
ing more than a thousand women and  
children, to hear the mass.

When the congregation was kneel-  
ing in silent prayer some one in-  
formed Father Bonaventuri that the  
church was on fire.

Without alarming the congregation,  
he coolly stepped to the priest who  
was celebrating the mass and re-  
quested him to close the service.

The priest left the altar and spoke  
to six assistants, who walked down  
the aisles and whispered to the pew-  
holders that an insignificant blaze  
had broken out and that they had  
better leave the building as soon as  
possible, and they were all saved.

A dozen firebrands, soaked with  
petroleum, had been distributed about  
various parts of the roof.

SKIN ON FIRE—AGONY  
UNBEARABLE.

Terrible Itching, Burning Skin Dis-  
ease Now Quickly Cured.

A purely vegetable external reme-  
dy that has been proved beyond all  
possible doubt to cure the worst  
cases of Eczema, and all skin diseases  
can now be procured by all skin suf-  
ferers. This remarkable remedy is  
D. D. D. Prescription, the discovery  
of Dr. Decatur D. Dennis, the well-  
known skin specialist, and is being  
manufactured by the D. D. D. Co., 112  
Michigan street, Chicago, Ill. The de-  
mand for this remedy has become  
tremendous within a short time be-  
cause people are just learning that  
the hundreds of cures it has made  
seem to be permanent.

Eczema and all diseases of the  
skin must be treated locally, accord-  
ing to the views now held by fore-  
most skin specialists and physicians;  
that is, you must doctor the itch  
where the itch is. It is useless to at-  
tempt to cure skin disease by taking  
cugs and medicines into the stom-  
ach. The disease is not in the blood.  
It is in the skin and only skin deep.  
You must get at the seat of the dis-  
ease and kill the germ by making di-  
rect applications to the skin.

Mrs. L. B. Powell, Box 414, Caruth-  
ersville, Mo., writes: "Words can-  
not convey my full appreciation of  
D. D. D. The face of my baby boy  
was a solid sear when I accidentally  
heard of D. D. D. I secured a bottle  
at once and began to apply it. It  
was miraculous in its cure. It healed  
my baby's face completely. If any-  
one wants further information about  
this I shall be only too glad to hear  
from them."

Testimonials of hundreds of cases  
of remarkable cures by D. D. D. Pre-  
scription and an interesting booklet  
(a skin disease and its treatment,  
exercise, diet, bathing, etc., may be  
had free by calling on W. E. Bard

RICH STRIKE AT AURORA

Rich Vein of Zinc and Lead Is Found  
in Virgin Territory.

Aurora, Mo., June 9.—The largest  
and richest strike in the history of  
the Aurora zinc and lead mining and  
having no superior in the Missouri  
and Kansas zinc fields has been made  
two miles south of this city in virgin  
territory.

Practical mining men have held for  
years that the run of ore was south-  
west, although no well defined efforts  
were made to push operations along  
the supposed run.

Ore has been found at a depth of  
248 feet and from that level to the  
depth of 300 feet the very richest of  
jack was encountered.

Preparations are already under  
way to begin mining as soon as  
shafts can be sunk and machinery  
put in place.

Centenary of the Waltz.

The waltz is celebrating its centen-  
ary this year. Immortalized by Lord  
Byron it has during the whole of its  
existence taken precedence of all other  
ballroom dances, and is it to be doubt-  
ed for a moment that, while Terpsichore  
has any votaries in any civilized  
land, this entrancing form of salutation  
will stand unrivaled? Every year ex-  
perts in the art of dancing meet to  
devise and try salutory novelties.  
They come and go. Some endure for  
a season, others have a longer vogue,  
but the waltz goes on forever. It  
holds its own against all others.  
"There is none like it, none," none  
that has inspired such haunting me-  
lodies, none that has danced away so  
many hearts.

Buttermilk Lozenges and Long Life.

Gen. Weaver recently recommended  
soft water for longevity, but the very  
latest fountain of youth is filled with  
buttermilk. A Paris scientist has dis-  
covered that buttermilk is a panacea  
and life prolonger and the Pasteur in-  
stitute is turning out buttermilk tab-  
lets by the hopperful.

Good citizens who have no recourse  
to cows should fill their pockets with  
the lozenges, nibble them now and  
then and note the effects. They will  
do no harm, and on the other hand  
science's commendable pursuit of the  
secrets of a long life and a merry  
one deserves encouragement.

Glories and Grooms.

The students of Yale university have  
invented some new slang descriptive  
of important conditions which affect  
the lives of young men. Here are  
some additions to the Yale vernacular:  
"A Glory"—A young woman of un-  
usual attractiveness.  
"A Gloom"—A young woman of far  
less than average attractiveness; vide  
"Gleam."

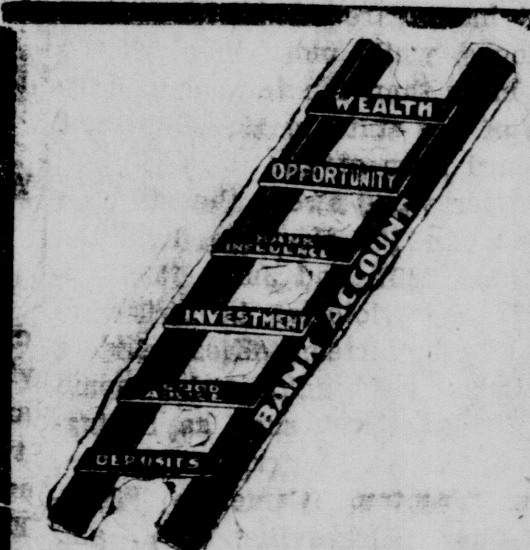

"A Ball of Fire"—A young woman  
whose beauty and charm are irresist-  
ible. An ideal guest for college par-  
ties. Vide "peach," "pippin," "cork-  
er," etc.

Relation of Weight Tables.

The common standard by which the  
relative values of the various weight  
tables are compared is the grain,  
which for this purpose may be regard-  
ed as the unit of weight. The pound  
troy and the apothecaries' pound have  
each 5,760 grains; the pound avoirdupois  
has 7,000 grains. There are scales  
used which give weights according to  
various systems, but they are not used  
to any extent commercially.

Swallowed Her Week's Wages.

A Dundee (Scotland) girl swallowed  
a week's wages recently. To safeguard  
her money, which consisted of one  
gold and two silver coins, she carried  
it in her mouth. The accident was  
caused by her laughing heartily at a  
joke.

# JUST SUPPOSE

In the Democrat-Sentinel of June 8th, the prohibitionists make the following statement:

"Just suppose that the workingmen that have spent their money over the bar in the last four years had that money NOW.

"Would the shops shutting down affect them?

"Many of them could take that wife and go to a summer resort while the shops were not running.

"Just suppose the 'tax howler' which, as a rule, pays very little tax, had the money that he has lost by Sedalia being bled of that \$1,400,000 in the last four years."

We put it up to the workingmen. Just suppose you had saved all your beer money. Think of the fine time you could have had since last February, when the shops closed, at some mountain or watering resort. Think of the pleasures you would still be enjoying.

Then there are some of you who do not drink, although the prohibs do not seem to believe it. Where is your beer money?

Recall the LEADING citizens who occupied the platform at what the drys term the grandest meetings ever held in Sedalia.

Recall the remarks made by some of these LEADING citizens.

One of them said that the men who came to Sedalia to work in the new shops during the first year of their existence were not desirable citizens.

Another recalled the strike of '86 and told of the bravery of the LEADING citizens of that day, who broke that strike and drove hundreds of working men from Sedalia.

And then, as it to add insult to injury, he said that the same men who broke the strike, would carry this city for prohibition.

Another LEADING citizen graced the platform at one of these meetings. He did not make a speech. That was not necessary. He is known from one end of the country to the other as an avowed enemy of organized labor. He glories in that reputation. His speciality is the organization of Citizens' Alliances.

These men are representatives of the prohibition party of Sedalia.

Another LEADING citizen, at one of these grand meetings, took occasion to hurl an insult in the face of every Catholic in Sedalia.

And in the face of these things the prohibitionists have the temerity to appeal to organized labor for its support.

Who is it safer for organized labor to follow: LEADING citizens who are avowedly hostile, or at least not friendly; or their own representatives, who have declared their position in no uncertain tones through the Sedalia Federation of Labor?

This association has recognized the fact all through the campaign, and while we have appealed to the workers to vote against prohibition in his own interest, we have never attempted to conceal the fact that our prosperity rests upon the well being of the worker.

We have pointed out that the destruction of a great industry must necessarily add to the unemployed.

We have pointed out that the competition of these new recruits to the already large number of unemployed, not only in the country at large, but in Sedalia as well, must necessarily tend to further reduce wages. We have pointed out that the taking away of a necessity or luxury from the people at large, will sooner or later result in a lowering of wages to the extent that that necessity was used or that luxury indulged in before it was abolished.

As to the "Tax Howler," who according to the drys, pays very little taxes, we submit that most of the heavy tax payers are on our side.

A gentleman who resides at Ninth street and Massachusetts avenue has a great deal to say about various and sundry things during this campaign. He has used considerable space. Sometimes as much as two columns. He has invited the public to call at his residence and be convinced that he is a heavy taxpayer.

On March 6th, 1908, this heavy tax payer, or to use the prohibitionist appellation, "tax howler," paid \$1.82 to the city collector. This amount comprises the following items: Taxes for 1907, \$1.70, penalty 5c, collector's commission 7c; total \$1.82.

If any one is disposed to doubt this statement as to the heavy taxes paid by this gentleman, he is referred to the city collector's office and advised to look up receipt No. 3905, dated March 6, 1908.

As this gentleman by his own confession, is one of the heaviest tax payers on the dry side, we leave it to the public to compute the taxes paid by the entire dry contingent.

**Eternal Vigilance.**  
Various are the devices for the defense and security of cities, as palisades, walls, ditches and other such kinds of fortification, all of which are the results of the labors of the hand and maintained at great expense. But there is one common bulwark which men of prudence possess within themselves—the protection and guard of all people, especially of free states, against the attacks of tyrants. What is this? Distrust.—Demosthenes (384-322 B. C.)

**Test for Water Purity.**  
To ascertain if water is free from organic pollution place a lump of sugar in a bottle nearly full, and cork it up, and if after thus excluding the air and keeping the bottle in the light for two or three days no milky cloud is apparent, but the water remains clear, it may be considered free from the phosphates with which sewage water is impregnated.—Engineering News.

## SPECULATION MUST CEASE

There's a Sure Cure for Asthma, Bronchitis Coughs, Colds and Catarrh, So Why Should People Speculate?

Remember, Hyomei will cure the above named diseases or the W. E. Bard Drug Co. will give you your money back. Go to them and ask for a Hyomei outfit, which consists of a bottle of Hyomei (a very liberal supply) and a pocket inhaler that will last a life time. The whole outfit only costs \$1.00, and if at any time afterward you need another bottle of Hyomei to use with your inhaler, it will only cost you 50 cents. Ask them about it. They will recommend it.

"I think your Hyomei is a grand medicine; it has done for me what doctors could not do, and I've tried everything. I had such a bad cough, and nothing I took did me any good. I tried your inhaler, and I never had anything help me so much or so quick. Wishing you long and prosperous lives, I remain, your true friend, Saba Sheline, Mertz, Ind."

## THE STACKING OF WHEAT

C. T. PRITCHARD, OF RANDOLPH, MO., GIVES SOME ADVICE ON THE SUBJECT.

### HE WRITES AS IF HE KNOWS HOW

If You Will Follow His Suggestions, He Will Guarantee Your Stack Will Not Take Water, as Too Many Do.

To the Democrat-Sentinel.

For stacking wheat or any other grain so the stack will not take water, commence stack or rick any way you wish, but when you have got stack up about four feet high, just reverse the usual way of stacking and work from the center to out edge instead of from out edge to center.

When you commence at center lay down two or three bundles so as to get a good pitch to bundles before working to out edge. Be sure and keep center high and out edge low, or it is a good idea to shock it up nearly straight once in a while in the center, and as you work out near the out edge give bundles a little less pitch.

Do not try to place bundles too close together on out edge of stack; give them plenty of room, so when stack settles the out edge will settle and center remain solid. This way of stacking is about the same as one shock on top of another. You can have any pitch you desire to bundles in this way of stacking. This way is easy and fast.

It does not require an expert to stack this way. Any one that can build a shock ought to be able to stack in this way. There is no slip or slide in this way of stacking, and it sure keeps the stack dry; or if you are stacking in the usual way, working from out edge to center, and your stack should commence to slip, just go to the center and work out and see how quick you can stop the slipping.

—C. T. Pritchard, Randolph, Mo.

### Wolf's Tooth as Mascot.

A singular revival is taking place in Paris for wearing the tooth of a wolf or badger set in gold as a mascot. An old superstition connected with the wearing of such ornaments as provocative of good fortune. The custom of wearing a thumb ring is also being resuscitated and at this present time a charming young actress on the English stage is demonstrating the vogue, partly, no doubt, because it is in keeping with the period in which she is living in the play, and partly in recognition of the fashion Paris is patronizing.

## LUNG DISEASES

Spring Coughs Are Dangerous

They indicate that there is something radically wrong. All persons affected, and especially all those who suffered from an attack of the "grippe" during the past winter, should beware. More fatalities and deep seated chronic diseases of the Lungs, Heart, Liver and Kidneys and many grave nervous disorders are directly traceable to the effect of these malignant "grippe" germs than all other causes combined. These malignant germs have a way of settling in the deeper structures and then setting up conditions that resist the ordinary methods of treatment. We, as specialists, pride ourselves on being able to overcome this most formidable enemy of mankind our famous

## Inhalatorium Treatment

It is the most scientific treatment ever devised for all diseases of the air passages and the long list of affections that follow the after effects of the "grippe." It is the most energetic method known for speedily eradicating the germs of diseases from the system. 'Tis a great blood regulator and a builder of the tissues and as a part of our modern Americanized European methods it is useful in a wide range of disease. We give you relief the very first treatment and do it without loading your stomach with drugs. We cure you by the only natural way. Direct medication applied directly to the diseased surfaces by our wonderful Inhalatorium Cabinet.

## Catarrh, Throat, & Lung Trouble

Need have no further terrors, for you need not fear the oncoming of the Great White Plague—consumption—if you consult us in time. You can be cured more cheaply here than a trip to the mountains. Do not think that because you have failed to get relief by the ordinary methods that we can not cure you. We have the only Inhalatorium Cabinet in this part of the state, and it has gained a wide reputation. Many come from a distance to avail themselves of this remarkable cure. Come and let us demonstrate the workings of this wonderful machine.

Hundreds who had almost lost hope have been restored to health. Our consultation is free. Our charges are reasonable. We accept no incurable cases.

### News.

Some persons are disturbed by the fact that evil deeds seem to predominate in the news. Of course! It is necessary that evil be exposed, but good conduct, which is the rule, does not particularly call for the limelight of publicity.

### Alleged Threat to Kill.

Jack Smith was arrested by a member of the constabulary last night, charged with disturbing the peace of Henry Hilburn by threatening to kill him. Judge Rickman will hear the evidence.

### The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach is utterly indifferent to all diseases, finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

"The Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps or cloth-bound for 31 stamps. Address Dr. Pierce as above.

## HANGED UP BY THUMBS

LITTLE GUY HUFF SAYS HIS FATHER PUNISHED HIM THAT WAY.

### A BRUTAL CASE AT SHELBYNA, MO.

The Parent Also Threw the Child Into a Pond of Water to Correct Him of Habits That Were Very Bad.

Shelbina, Mo., June 9.—At the conclusion of the trial of Jesse Huff, charged with inhuman treatment of his 7-year-old son, Guy, the defendant was fined \$100 and costs.

It has been stated freely that the charges against Mr. Huff were considerably exaggerated, and it was thought that the hearing would vindicate the father, but witnesses testified that Huff had admitted to them he had hanged the boy up by the thumbs, and that on one occasion he had put the little fellow into a pond.

Mr. and Mrs. William Peckett, neighbors of the Huff folks, testified that on Sunday previous to Huff's arrest, little Guy had come to their house and they had noticed his hands were badly swollen, and that his thumbs were lacerated and inflamed. Naturally they became curious to know what had caused the injury, and the poor little fellow said, according to the witnesses:

"Papa took binder twine and hung me up by the thumbs."

He also said that his father had put a pump chain around his neck and hanged him twice; and that the parent had also thrown him into the pond. Other witnesses testified as to having seen numerous bruises and welts on the boy's body and limbs immediately after the father's arrest.

Huff and his wife swore that the boy had bad habits and that whatever punishment he had been subjected to was merely for the purpose of correcting those habits.

They denied that he had been hanged by the thumbs or with the pump chain; they also denied the pond story, but the father said he had set the boy in shallow water, where it was only two or three inches deep, and had told him to sit in a tub of cold water for the correction purposes mentioned.

### Diamonds in America.

Since 1830 many American diamonds have been authenticated, but none before has been found "in place." Most of those in the United States, Guiana and Brazil have come to light through the "breaking down," or wasting away, of the original rocks, which allows the diamonds to be washed into brooks and river gravels, as in South America. Many have been found in the glacial moraine of Ohio, Indiana, Michigan and Wisconsin, whither prehistoric glaciers had swept them from some point in Canada. Search is now being made for the original resting place of these stones by several surveying parties along the line of the new transcontinental railway from Quebec to Winnipeg.—Review of Reviews.

### Superstitions About Water.

Delightfully quaint are all the superstitions concerning water, and one which never fails to send little thrills along one's spine is that which holds that, if water is taken with soup, the drinker will cough in his grave. A lively quarrel is said to be the result of two friends washing their hands in the same water; and while water poured on the doorstep ensures prosperity, water thrown out will soon give cause to weep. Pleasant indeed for the maiden is the belief that every time she spills water her lover thinks upon her; but for the housewife the spilling of water foretells that, ere she can dry it up, her house will be full of callers.

### Sold His Eternal Salvation.

Rodnoa Dielo, a Russian newspaper, reproduces from the original a curious deed of transfer. The document runs: "I, the undersigned, Nicola Niciphorovitch, peasant, 38 years of age, of the Dogmarovski district of Melitopol, have fallen into evil days. I am at the end of my resources, and hereby certify that I have sold for the sum of 50 rubles my eternal salvation and place in the kingdom of heaven to Makar Selanky." The signature is attested by one elder of the village council.

### Corrosion of Boilers.

Corrosion or the wasting away of the iron of a steam boiler may be due to the acid in the feed water, says Ideal Power. Where sulphuric acid is found in this water its destructive force is often spent in destroying the feed pipes before it actually enters the boiler. This is expensive, annoying, and even dangerous in some cases, but is much preferable to a boiler explosion.

### How to Cure Skin Diseases.

Eczema, pimples, dandruff and itching skin diseases are of local origin and are caused by germs. In order to cure these diseases the germs and their poisons must be driven to the surface of the skin and destroyed. Salves and greasy lotions may give temporary relief, but they do not destroy the germs that cause the disease. A St. Louis chemist has discovered a clean vegetable liquid remedy that will draw the germs and their poisons to the surface of the skin and destroy them, leaving a nice, clear, healthy skin. This remedy is known as Zemo, and by its many remarkable cures has attracted the attention of the leading scientists and skin specialists of this country and Europe.

Zemo has been given the most cordial reception by the public of any similar remedy ever produced, and it is recognized as an honest medicine that makes honest cures.

Zemo is for sale everywhere. You can obtain a trial package free by writing to the E. W. Rose Medicine Co., St. Louis, Mo.

Mr. Dan Wilcox, druggist at 104 West Main street, has secured the agency for Zemo in Sedalia and will gladly show you proof of some of the wonderful cures made by this remarkable remedy.

## HOUND TEARS OFF BOY'S ARM

Springs on Mayer Lad as He Swings on Screen Door.

Prescott, Ariz., June 9.—Willie Mayer, the 5-year-old son of parents after whom the rich mining town of Mayer, in this county, was named, had his left arm torn off by a great Dane hound Sunday evening. The little fellow was swinging on a screen door of a restaurant when the dog sprang upon him.

Almost at the same hour J. T. Wheldon, president of the Bonanza Mining company, had his left hand almost torn off by a wild hound which he discovered in a steel trap set for wolves near the mine.

Wheldon was trying to liberate the hound when it seized his left hand and tore it into shreds. Wheldon left for treatment, as the hound gave evidence of madness from long confinement in the trap.

### The Ideal.

The ideal is nothing more nor less  
than the culminating point of logic,  
even as the beautiful is nothing more  
nor less than the summit of the true.  
The artist people is thus the consist-  
ent people. To love beauty is to see  
light. This is why the torch of Eu-  
rope, that is to say, civilization, was  
first borne by Greece, who passed it  
to Italy, who passed it to France. Divine  
pioneer peoples!—Victor Hugo.

### Superstitious Viennese.

earthquake.

## GUARD SECRETS OF GIBRALTAR.

British Allow Little Sightseeing on  
Famous Island Fortress.

In spite of the fact that Gibraltar  
has been held by the British for 200  
years the native population of to-day  
is unquestionably Spanish in appear-  
ance, customs and language. Our  
walks through the town convinced us  
of this fact, for everywhere we heard  
men, women and children talking  
Spanish. It is this element that forms  
an overwhelming majority of the  
civilian population. The garrison,  
which a few years ago numbered some  
7,000 troops, now numbers but 4,000,  
improved guns and projectiles making  
the lesser number equally efficient.  
The amount of sightseeing permitted  
to foreigners and to visiting Britishers  
has undergone a marked change, for  
not so many years ago the tourist was  
free to walk pretty well over the rock.  
Gradually this was prevented; but  
still it was always possible to go  
through several of the famous gal-  
leries. Now even that privilege has  
been withdrawn, and only British sub-  
jects are allowed to enter the within-  
the-rock batteries, which after all is  
not much consolation to them, as they  
are shown only one of the many gal-  
leries, and that a deserted one, so far  
as guns are concerned.

## SUBORDINATION OF THE WILL.

Educator Urges Necessity of Teaching  
Children to Obey.

Learn to obey! By obedience I do  
not mean a merely outward submis-  
sion to force and authority, but the  
voluntary subordination of one's own  
will under the will of a better and  
higher intelligence. He who has not  
learned to do this in childhood will  
have great difficulty in learning it in  
later life; he will rarely get beyond  
the deplorable and unhappy state that  
vacillates between outward submission  
and uproarious rebellion. No greater  
wrong can be done to childhood than  
the one caused by our desire to spare  
it the necessity of obeying. Whoever  
conceives the duty of the educator  
to consist in giving in to all desires  
of the child, in gratifying all its  
wishes, makes himself guilty of the  
gravest sin toward his child. He de-  
nies it what, in view of its future mis-  
sion, it cannot afford to lose, namely,  
the exercise in voluntarily subordi-  
nating its own will under necessity.  
Be it a natural or a social one.—Prof.  
F. Paulsen, University of Berlin, in  
Educational Review.

## American Humor Criticized.

An observing London visitor, who  
has been studying New York pictorial  
humor, says he finds it to consist al-  
most entirely in some person being in-  
jured or made ridiculous, and this, he  
says, is a barbaric conception.

The world's population could be con-

gested as 11 New York city blocks,

## MAIDENS NO LONGER ROMANTIC.

"Prince Charming" of To-day Must  
Have Fat Bank Account.

There's no romance left in the  
world, anyway. Time was when girls  
dreamed of Prince Charming, and  
didn't bother about anything less im-  
portant than the color of his eyes and  
the way he tied his cravat. Now  
they're thinking of a bank account so  
large that almost any man will be  
quite indistinguishably hidden behind  
it. They're doing worse than that. I  
overheard two mites of girls, neither  
of them older than 13, exchanging  
confidences recently. The shorter one  
said she meant to be an architect, and  
earn her own living.

"But if you'd marry a rich man you  
wouldn't have to," objected the taller  
girl.

The midget screwed up her face  
shrewdly.

"You can't never tell about money,"  
she said. "He might go and lose it,  
and then where'd I be with him to  
support if I couldn't work?"

"And would you have to support  
him?" asked the first girl, a bit awe-  
struck.

The other nodded.

"I'd give him car fare every morn-  
ing and 15 cents for lunch," she said,  
magnanimously.—Washington Herald.

AMERICAN CONSUL TO LA GUAI-  
RA FLEES FROM CITY IN  
ROWBOAT.

## PICKED UP BY GUNBOAT PADUCAH

Flees New York After Long Im-  
prisonment Under Quarantine  
Regulations With Scarce  
Food Supply.

New York, June 9.—Thomas P. Mof-  
fat, American consul at La Guaira,  
Venezuela, who found it impossible  
to do much for his country while iso-  
lated by bubonic plague that shut  
Guaira off from commercial and other  
relations with all the world, arrived  
Sunday from Santiago by the Ward  
liner Segurancera. How he came to  
take a roundabout way for home he  
told Sunday.

He could not communicate with  
any one beyond La Guaira except by  
telegram or telephone, and he could  
not do anything for his fellow coun-  
trymen because there were none in  
La Guaira, except two, who had  
elected to stay there plague or no  
plague, for business reasons.

He was the only man in the con-  
sular game who had not signed a  
declaration that there was no bubonic  
plague within mentioning in it, Guai-  
ra. For nine days he cooked his own  
meals at the consulate. He was short  
of provisions, as everybody else was,  
and he had little or no meat.

Mr. Moffat used the telegram to  
ask for permission to come back to  
America. Uncle Sam dispatched the  
gunboat Paducah from her station at  
Guantanamo bay, Cuba, to La Guaira.  
The Paducah anchored five miles off  
shore and Mr. Moffat bought a row-  
boat and made the trip alone. When  
he clambered aboard the Paducah he  
cast the boat adrift, not wanting to  
endanger any one aboard the Paducah.  
He was taken to Guantanamo  
and quarantined in the Marine hos-  
pital there several days before he  
was permitted to go to Santiago and  
take the Segurancera for this port.

Mr. Moffat will go to Washington  
in a day or so and tell the govern-  
ment all about the situation at La  
Guaira and, so far as he knows, in  
Venezuela generally. He said that  
in the week before he left there had  
been eighteen deaths from the plague  
and there were new cases almost  
daily.

## APART FROM THEIR FELLOWS.

Peculiar Beliefs Concerning Those  
Whose Eyebrows Meet.

The person whose eyebrows meet  
may rest content in the knowledge  
that he is the possessor of a vigor-  
ous constitution. The growth of hair  
above the nose is as a rule fairly  
sound proof of good health. That is  
what the scientists tell you, but the  
superstitious have much more to say.  
In the northern part of Aberdeenshire,  
Scotland, there is a common belief that  
a "close brost" man, or one whose  
eyebrows meet, is foredoomed to end  
a wicked career on the scaffold. This  
may be compared with the view held  
in parts of the English midlands that  
the close-browed person is destined  
for fame and fortune. On the con-  
trary there are several superstitions  
on this subject. The eyebrows of the  
sycophants are often formed in this way—  
a fact which they turn to good ac-  
count, for in many parts it is believed  
that the owner of meeting eyebrows is  
also the possessor of what is called  
the evil eye, and, therefore, a person  
whose good will must at all costs be  
retained. The sycophants, especially in  
Germany and Austria, use this belief  
to extract money from the credulous  
vassals.

Helena, Mont., June 9.—William  
Hale, aged 28, and a resident of St.  
Louis, died here yesterday as the  
result of injuries received by falling  
from a trolley car on which he was  
employed as a conductor.

Hale and his brother came here  
from St. Louis a year ago. The dead  
man was engaged to be married next

## RUMBLINGS OF THE RAIL

GEO. J. GOULD AND C. S. CLARK  
SAILED FROM NEW YORK  
FOR EUROPE.

### COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

After a month of the most strenuous work he has put in since he came into the management of the Gould railroad properties, George J. Gould will sail for Europe tomorrow on the Kron Prinzessin Cecilie, says a New York dispatch of the 8th inst. He will join his family on the continent and spend six weeks automobiling through France and Southern Europe. He expects to return early in August. He is accompanied by Vice President C. S. Clark, of the Missouri Pacific, St. Louis.

Mr. Gould had expected to sail earlier, but the unsettled state of affairs in two or three of his railroad properties made a postponement necessary. He is going away with four members of his railroad family in the hands of receivers and the Missouri Pacific, the main road in the Gould system, on a non-dividend basis for the first time since 1900.

Under these circumstances it would seem as though Mr. Gould was leaving in a discouraged state of mind and not very optimistic as to the future. The contrary is the case. Those who saw Mr. Gould today said that he was cheerful as to the outlook both as to his own properties and to the steady improvement in the business affairs of the country.

The main reason why Mr. Gould is not discouraged is that he has enlisted the support of considerable new capital in his railroad undertakings. It is known that the investment of John D. Rockefeller in several of the Gould roads, such as Western Maryland, Washash-Pittsburg Terminal and Western Pacific, has always been quite heavy.

This year Rockefeller funds have gone into other Gould properties, particularly into the Missouri Pacific. It is thought that the principal reason for the recent dividend policy of the Missouri Pacific board was a demand by outside interests which had been looking into the property with a view to a large investment in it and which thought that the first need was to improve its physical condition and build it up to its traffic capacity before paying out any more dividends.

It is a safe prediction that, in the future, John D. Rockefeller will be more closely associated with the Gould railroad projects than any other man and that all of the past policies of the Gould management will not be those of the future.

### Vacancies Are Advertised.

E. M. Dennis, Missouri Pacific trainmaster, today advertised the following vacancies:

Vacancy for a brakeman on local freights Nos 97 and 98 with Sunday layover at Jefferson City, and for two brakemen on the same run with Sunday layover at Myrick.

Vacancy for a brakeman on Nos. 64 and 77, with Conductor Crawford in place of Brakeman Shamwell, transferred to the river route.

Vacancy for a brakeman on Nos. 95 and 96, with Conductor Brummerhoff, with Sunday layover at Kansas City, in place of Brakeman La Barrier, transferred to the Myrick coal run.

Vacancy for a brakeman on Nos. 691 and 693, with Conductor Richard, in place of Brakeman A. E. Owens, transferred to the river route.

Applications for these runs must be on file not later than June 18.

### The Katy Not in the List.

A dispatch from Washington says that a list of the concessions of land made by the government to the railroads does not include the celebrated concessions claimed to have been made by the government to the Katy.

That is probably true, for the fact that the concessions claimed by the Katy of land grants in what was then Indian territory was provisional, and was to be made to the railroad company first building to the territory line from Northern Kansas.

This contest in railroad building was won by the Missouri, Kansas & Texas and it was on this claim that suit was brought in the United States court for the land, several million acres.

### Engineer Falls From Cab.

While his engine was running at forty miles an hour, Engineer E. Starlig, of passenger train No. 23, of the Burlington, due here at 6:30 a. m., fell from his cab several miles south of Hentons, Ia., which is twelve

miles from Council Bluffs, says an Omaha dispatch.

It was not until the train ran by Hentons without whistling that Fireman A. C. Jackson missed the engineer. The train was run back and the engineer found unconscious by the track. He has not yet recovered sufficiently to explain the accident.

### The Bridge Is Repaired.

Information was received at M. K. & T. headquarters here today that the company bridge over Red river, north of Denison, Texas, badly damaged by the recent floods, has been repaired, and service will be resumed today. Quick work, truly, but the Katy is noted for doing things, no matter the extent of the damage.

### Presented With a Gold Watch.

W. L. Morecom, auditor of freight receipts of the Missouri Pacific in St. Louis, who retires June 20 after twenty years' service to take up his residence in England, has been presented by the officials at the St. Louis general offices with a handsome gold watch as a testimonial of esteem and regard.

### Mr. St. George in Sedalia.

W. S. St. George, general passenger and ticket agent for the M. K. & T., arrived from St. Louis on No. 1 last evening for a brief business visit in Sedalia.

He is en route to Texas and Oklahoma on a tour of inspection of the country.

### Automatic Couplers.

J. V. Tapp, grievance man for the Katy, is enjoying a brief lay off.

J. M. Johannes went to Kansas City this afternoon on business.

F. D. Lister, a Missouri Pacific freight conductor, is laying off for a few days.

J. M. Chandler, Missouri Pacific roadmaster, went west this morning on company business.

Miss Helen Glaze, of Fort Scott, Kan., will arrive this week to visit Mrs. Emmett Hurley.

Arthur Norris, former caller for the Katy here, is here from Parsons, Kan., visiting home folks.

Misses Marie and Vera Edmonson arrived from St. Louis this afternoon to visit Mrs. Madan and family.

C. M. Jacobs, M. K. & T. ticket agent, and wife, left last night for a three weeks' visit at Texas points.

Carl Huebner, of Cole Camp, has been appointed a railway mail clerk.

Mrs. S. G. Kelly is home from a visit in Chicago.

Miss Charlotte Briggs spent several hours in the city today as the guest of Col. C. H. Zoll and family, and returned home this afternoon.

### Sneezing Prayer.

The custom goes so far back into the past it is next to impossible to say when it actually began. According to Strada, the custom originated among the Assyrians, who, through an opinion of the danger that attended it, after the act of sneezing made a short prayer to the gods. The Romans, after sneezing, cried out: "Jupiter, help me!" The custom is mentioned by Homer, the early Jewish writers, and others, and is found among many savage tribes.—New York American.

### Severe on Brother Lawyers.

One old member of the New York bar, who has long been in touch with court methods and proceedings, says he wonders why a certificate of good character is required before a man is admitted to practice.

### Forget Self.

The secret of getting along with people is to think about them more than you think of yourself. When folks fail you take to books.

## We Need Money Let's License All These; They Will Pay It.

If we are to license the saloon for the MONEY there is in it, let's license the GAMBLER, the HOLD-UP MAN, the ANARCHIST, the HORSETHIEF, etc. If we must have the MONEY, surely these people will pay a license for us to protect them. If they are of help to Sedalia let's have all the help we can get, for we need people to help pay taxes, and we are in debt \$200,000, and there is very little hope of getting out of debt by going along as we are, for we have tried it THIS way for 48 years. Where is the Sedalia parent that would rather have their boy come home drunk and robbed than to come home sober and just been held up?

Why will people restrict the hold-up man's personal liberty so? It is his right to hold up if he wants to. Why do we restrict the rights of Sedalia citizens from buying cocaine, opium, chloral, etc.? SURELY when they harm no one but their OWN bodies it is RIGHT. Why stop the personal liberty of horse stealing. It is HIS liberty to steal horses, and he don't turn women and children out on the STREET in doing it. Why not license the chicken thief? He don't do VERY much harm; he just gets chickens from the fellow that has them.

The truth of the matter is that when the man BUYS OR SELLS that which makes him a beast, a murderer, a thief, and he commits nine-tenths of all crimes when he gets the drink, THEN it becomes to be to the interest of his family, his neighbors and ALL who come in contact with him. If he did himself nor his family any harm, then it would be all right, but when it is against the man's home, his country and everything that is dear to him when he is NOT under its influence, then it is different.

Why did not Mr. Powell write to bankers near home?

Bunceton, Mo., June 8, 1908

Dear Mr. Caskey:

We closed the saloon here last year, after having it for several years. The results have been highly satisfactory and gratifying. The banking business has been benefited and all lines of legitimate business has been helped. The drug stores are observing the law. Drunkenness has been reduced to the minimum, and these come from other whisky towns. Prominent cattle men who have fallen from their horses dead drunk on the main streets now are sober and able to attend to business. The city's financial condition is as good as ever. Bunceton wants no saloons.

Dr. J. E. Cannaday, Sedalia, Mo.

Dear Doctor—I was in bed sick when your letter came, and I am sorry that I could not give it the attention at once. I will say that we closed our saloons two years ago. We were in debt then \$700.00. We have paid that off and this spring we have \$1,700.00 in the city treasury. The street work has been kept up better than ever and the best business men will tell you that their business is BETTER. I would like to get out and get you more evidence, for it is here, but I am too weak. We have put in incandescent lights instead of ARC lights, and your opponents may say we do not have our streets lighted with ARC lights. We have MANY more lights and they work well, too.

### Not His Job.

At Atlantic City a woman bather had got beyond her depth and was struggling helplessly in the water. A boat was soon put out and just as the man was reaching over to grasp the lady a sassy wave separated her from her wig, whereupon she instantly cried: "Oh, save my hair! Save my hair!" "Madam," responded the guard with dignity, "I may be a life saver, but I am not a hair restorer."

All the forces of evil may come upon a soul from without, and fail to shake it. But the smallest evil within, that is loved and desired and continued in, will accomplish what the outside attack has failed in. ### Sashes Much in Evidence.

A glance at the windows of the shops show that the sash has come into its own again, and that all sorts of extravagances in that direction may be expected. Not only do children wear sashes, but the young girls and older matrons have them, the simple blue and pink ribbons of sweet 16 and the velvet and heavy silk for 60 being equally popular.
